LADRILHOS

CATÁLOGO DE PRODUTOS

O revestimento que transcende **os tempos.**

Com mais de 20 anos de experiência, os ladrilhos hidráulicos cimentícios, da Santo Antônio são referência de bom gosto, qualidade e durabilidade.

Possuímos uma unidade de manufatura, no interior do Rio Grande do Sul. Em todos estes anos de atividade, somos reconhecidos por clientes do setor privado, bem como do setor público, tais como: **Palácio do Piratini, Sefaz, Catedral e a Biblioteca Pública de Porto Alegre.**

Nosso produto está presente em todo o país, transcendendo o tempo e levando a arte para seu projeto.

COMPOSIÇÃO

O processo de fabricação dos ladrilhos hidráulicos é totalmente diferente dos pisos cerâmicos industriais. Estamos falando de um processo manual que permite uma personalização única.

Cada ladrilho é feito especialmente para o seu projeto, através de um processo artístico, **composto por 3 camadas:**

- ▶ A camada superior do ladrilho é a cor, feita com pigmentos inorgânicos, areia de quartzo e cimento branco;
- ▶ A camada intermediária é feita com pó de pedra e cimento, o que confere resistência especial ao piso;
- ▶ E por último, uma camada de concreto.

PERSO NALIZA ÇÃO

Possuímos mais de **90 modelos de ladrilhos**, mas se você quiser pode desenvolver um modelo único.

Se você pode imaginar, nós podemos transformar em um ladrilho só seu.

Esperamos o seu contato!

QUALIDADE

Os ladrilhos hidráulicos são produtos feitos manualmente, por um profissional capacitado, e dele você deve esperar qualidade e desempenho, mas não perfeição.

Escolher uma empresa conhecida e respeitada é essencial para garantir que seu produto seja incrível.

Estas características são importantes na hora da escolha:

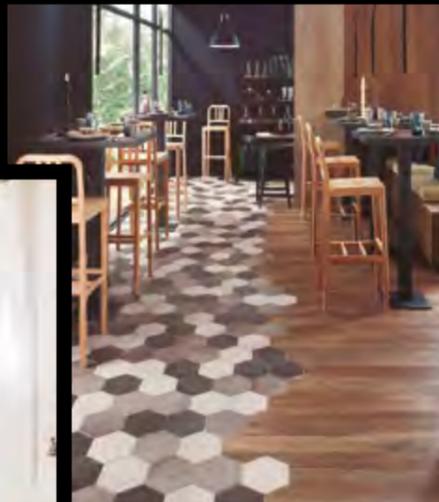

Limites claros, entre as cores.

Cores consistentes (com delimitações não perfeitas, mas consistentes).

Modelo conforme escolha.

Espessura padrão de 1,6mm.

MISSÃO

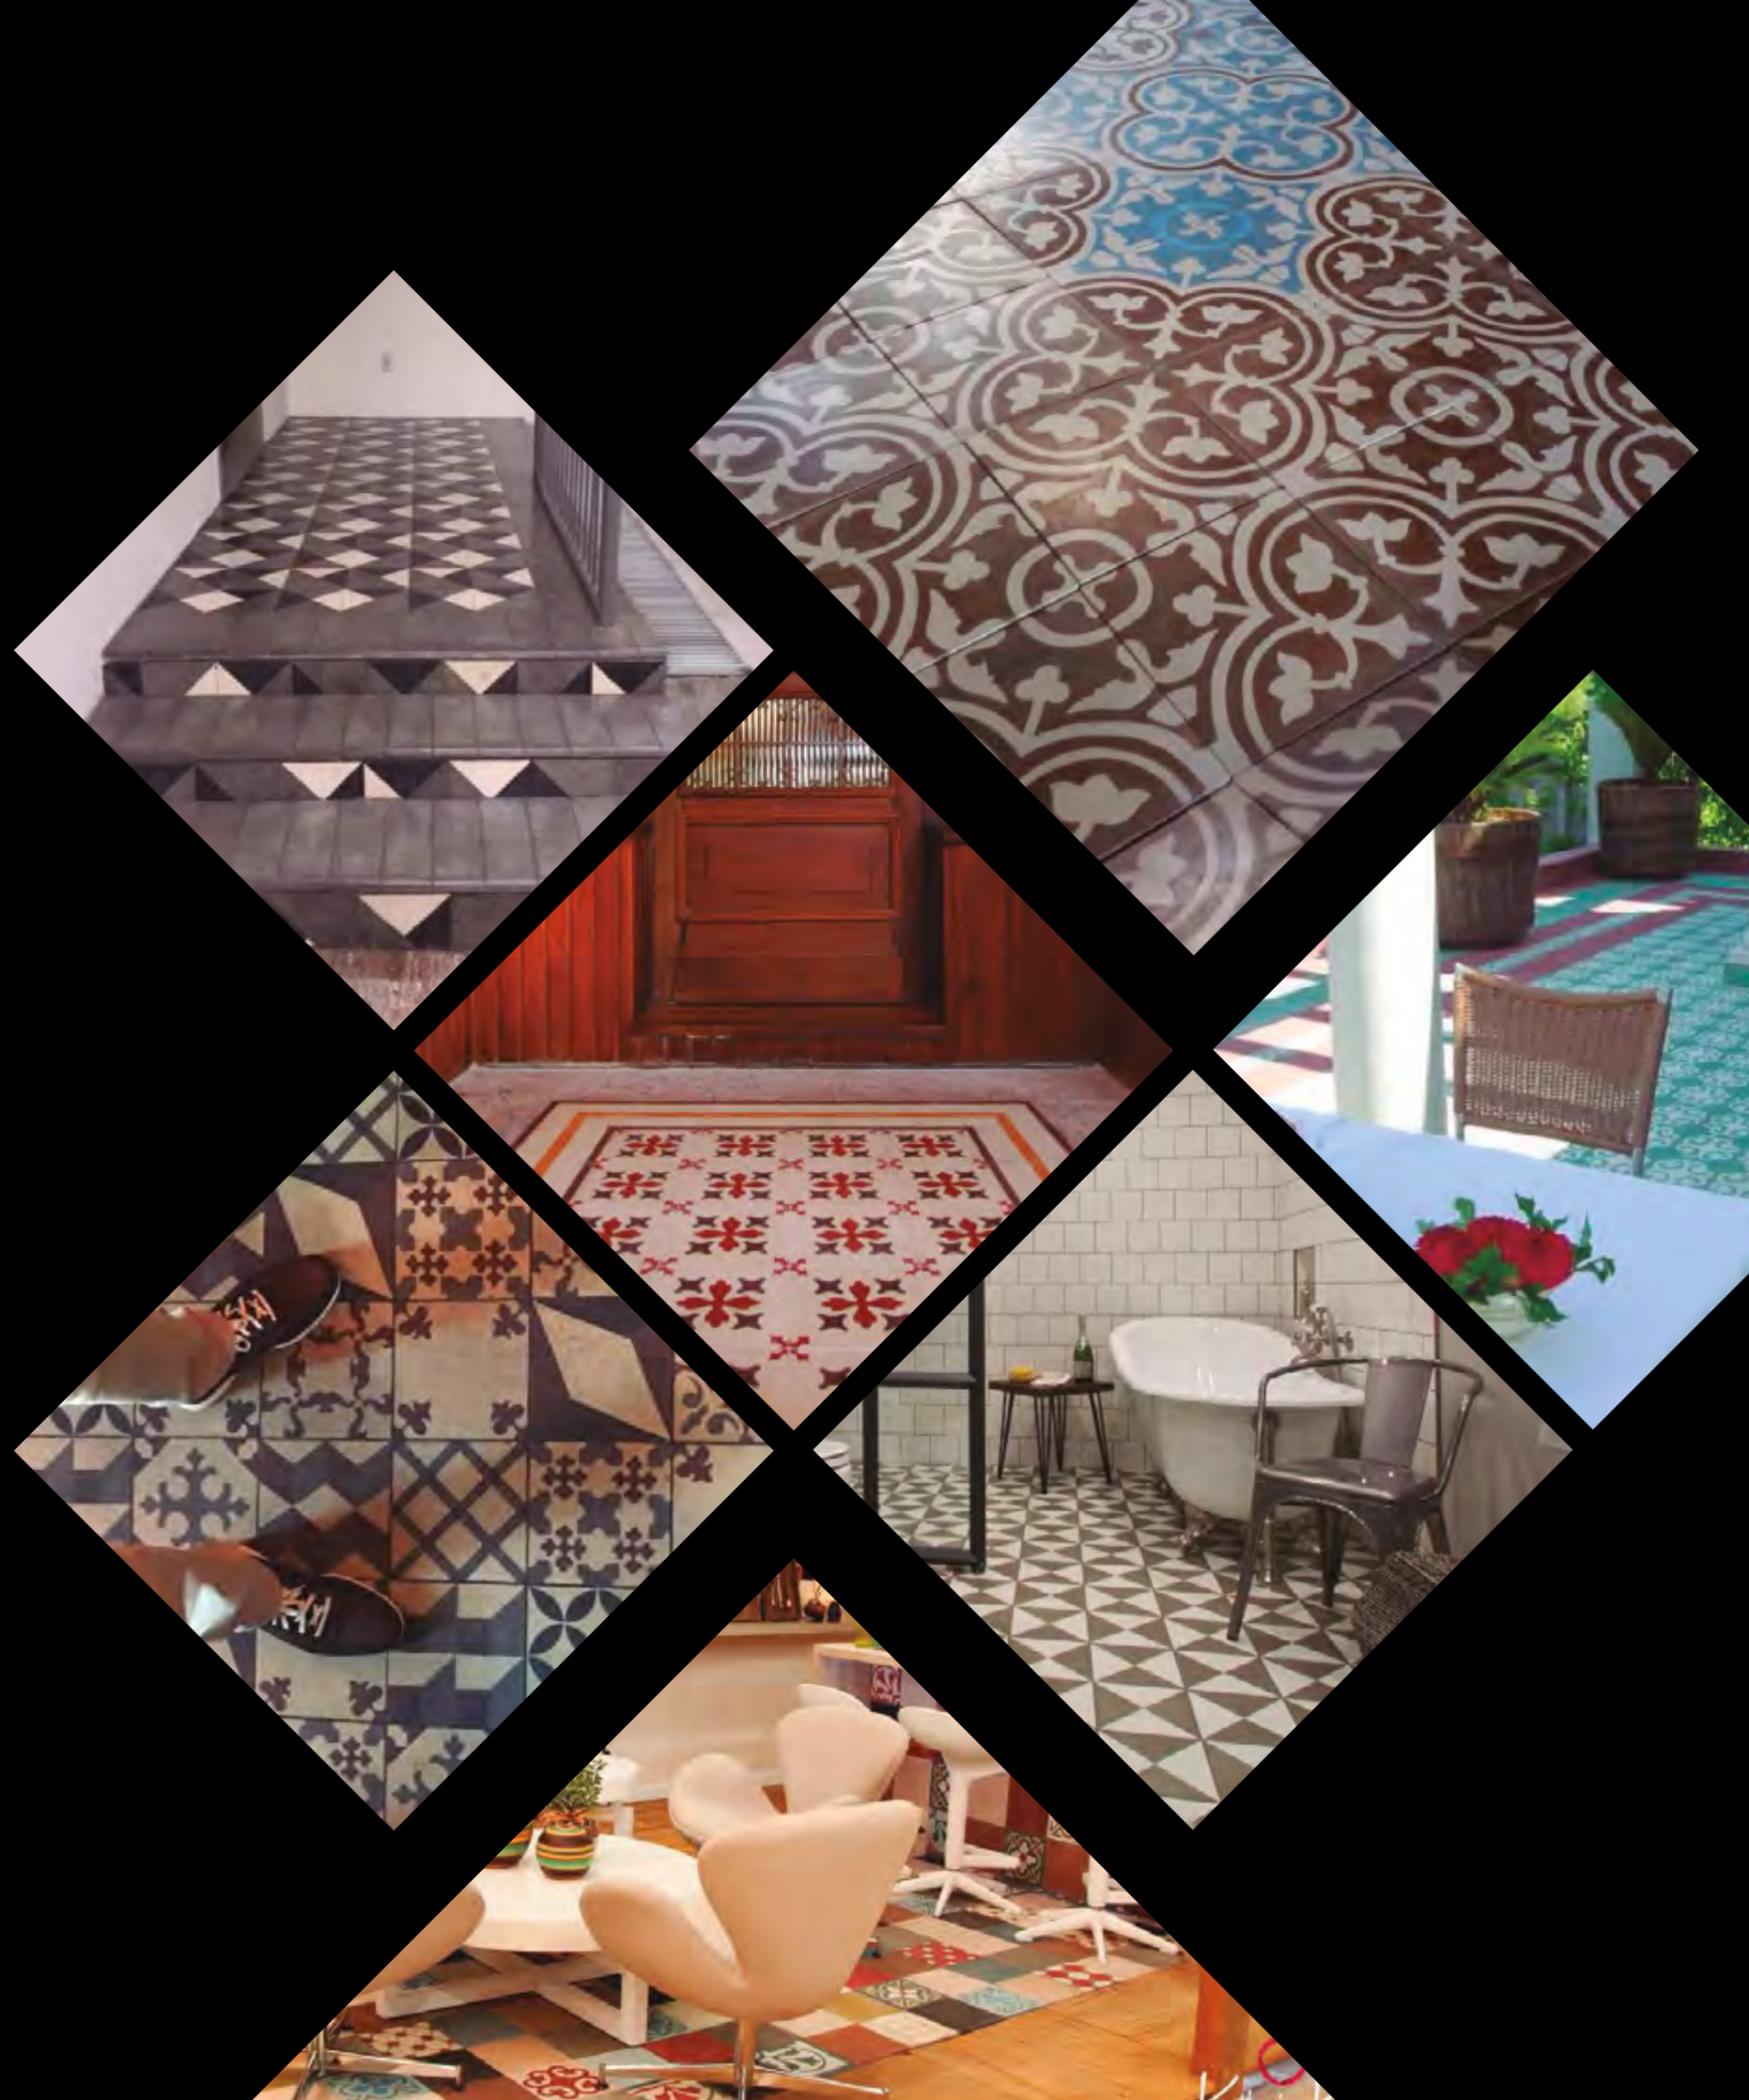

A missão de nossa empresa é levar arte aos ambientes e emocionar as pessoas, com os mais extraordinários ladrilhos hidráulicos cimentícios, compartilhando nossa paixão, qualidade e exclusividade incomparáveis.

VISÃO

Ser a empresa de maior rentabilidade de seu segmento, reconhecida por sua qualidade e comprometimento com a sustentabilidade, levando arte aos seus clientes.

VALORES

- Paixão pelo produto;
- Geração de valor por meio da arte;
- Comprometimento em criar um ambiente sustentável para viver;
- União do clássico e do moderno, transcendendo o tempo.

CHECKMATE

“As infinitas possibilidades de composições brincam com o olhar do observador.”

“ *As cores definem espaços e sensações. Elas modelam a luz, transformam a casa, nos chamam ou nos arremessam.* ”

“ *Você já considerou quanta coisa pura e inusitada envolve esse assunto de decoração de interiores?*

Provavelmente não. Quase todos acreditam que há algo profundo e misterioso sobre isso ou que você tem que conhecer todos os tipos de detalhes complicados sobre períodos antes de poder levantar um dedo.

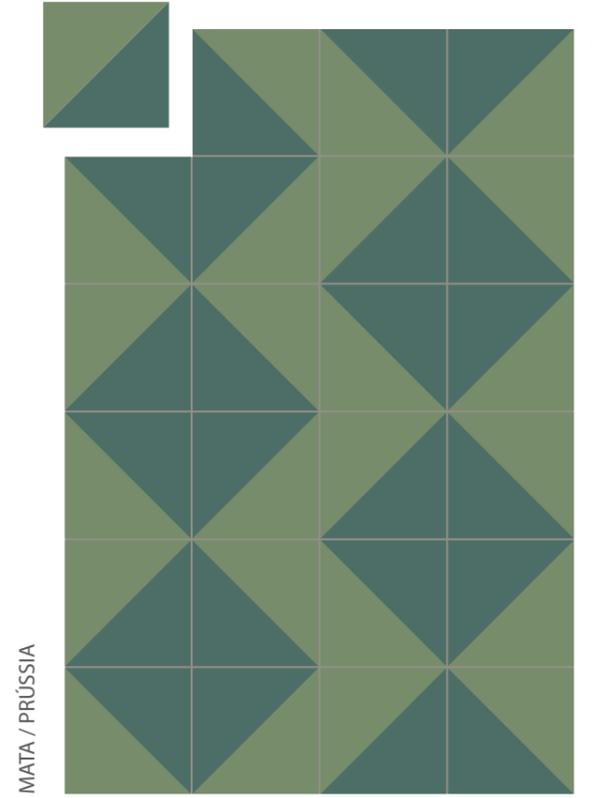

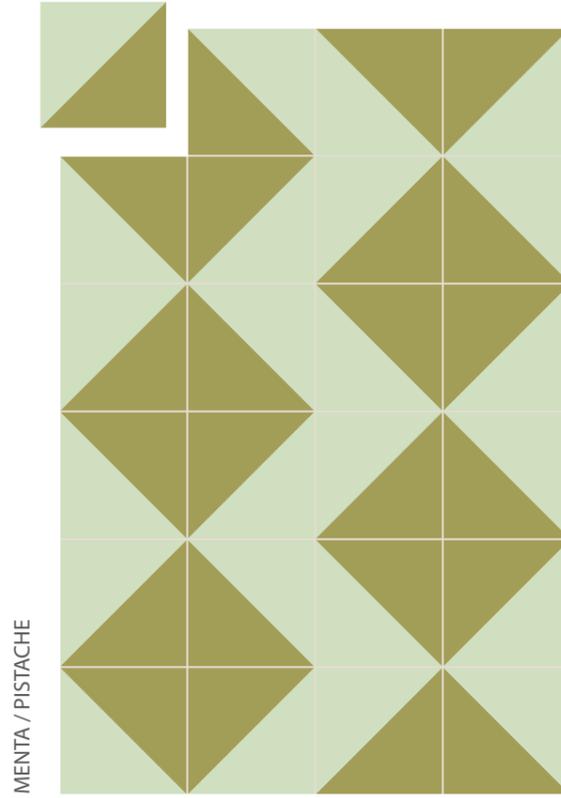

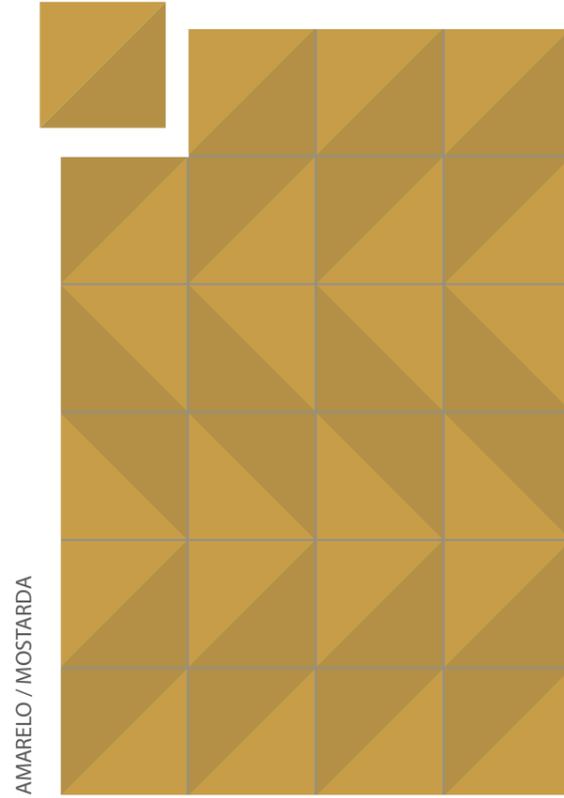

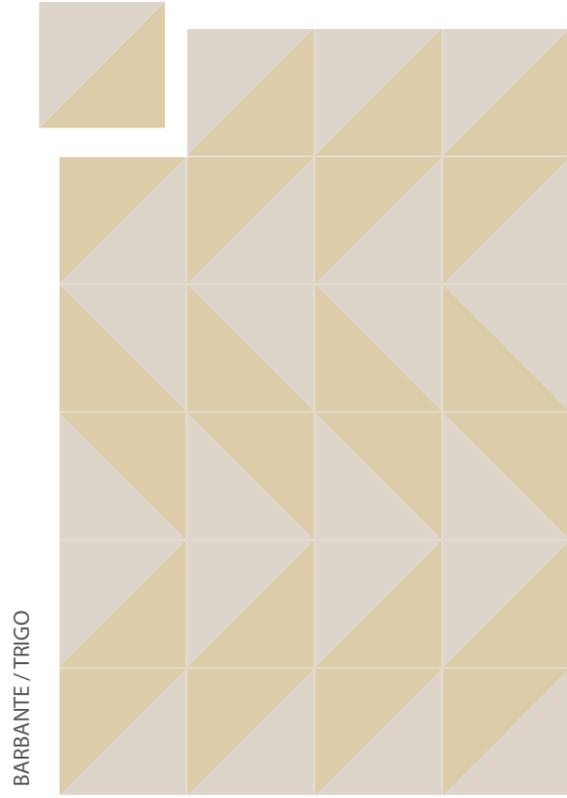

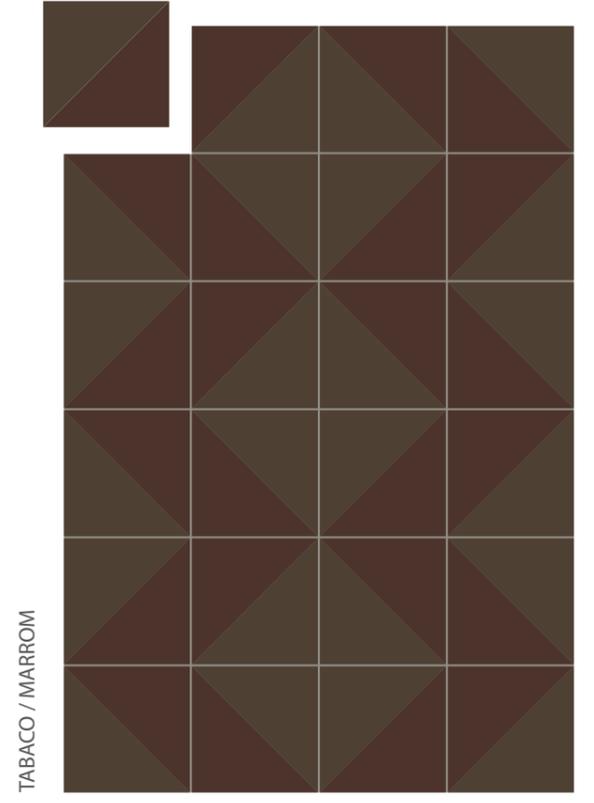

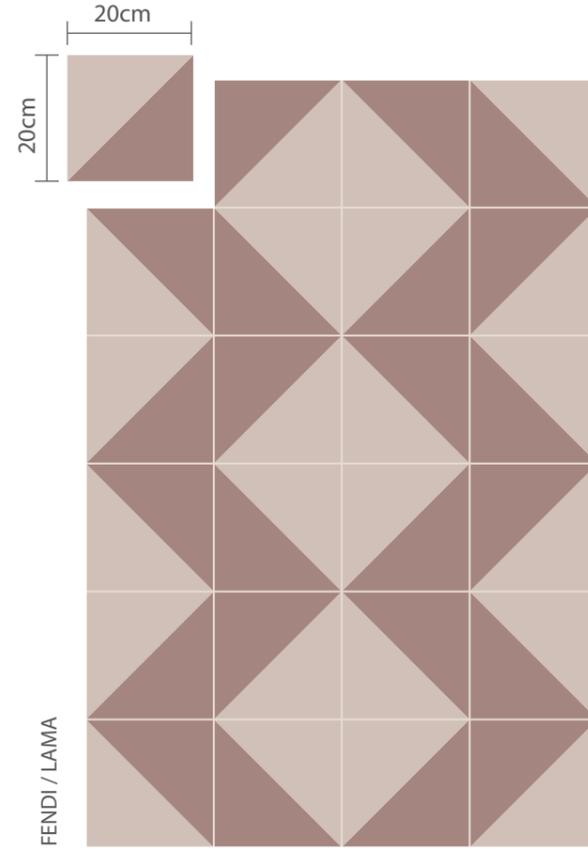

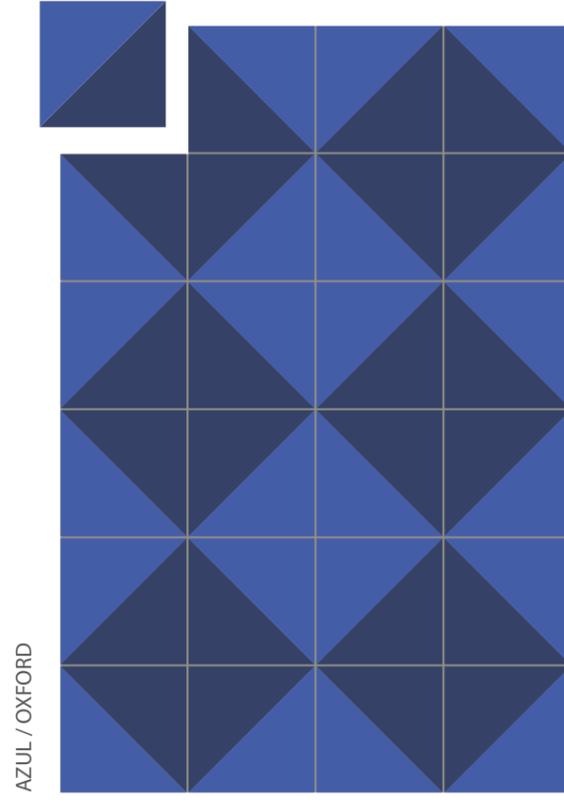

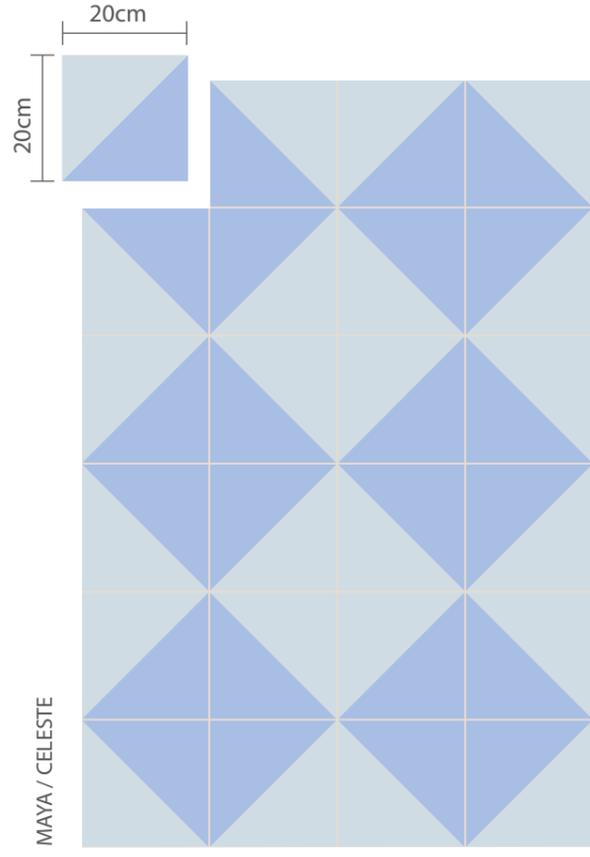

Bem, você não precisa! Decorar é simplesmente uma diversão: uma delícia na cor, uma consciência do equilíbrio, um sentimento de iluminação, um senso de estilo, um entusiasmo pela vida e um divertido encantamento pelos acessórios inteligentes do momento. ”

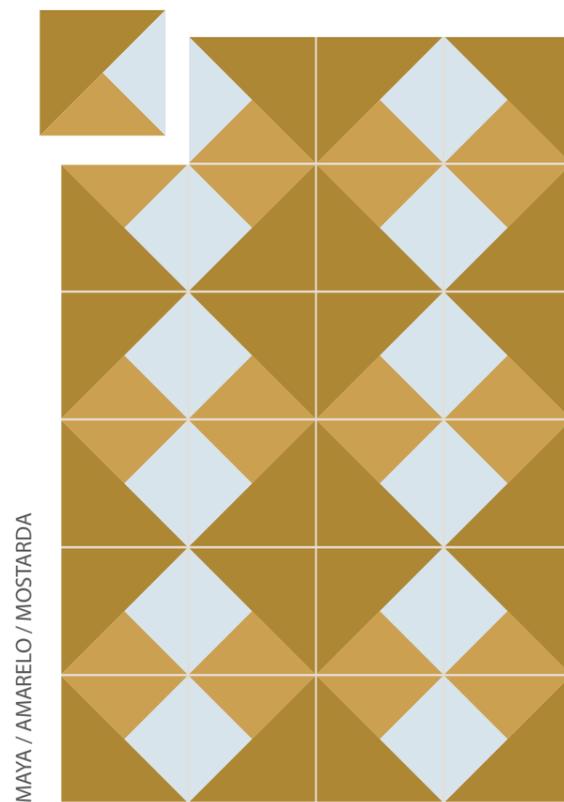

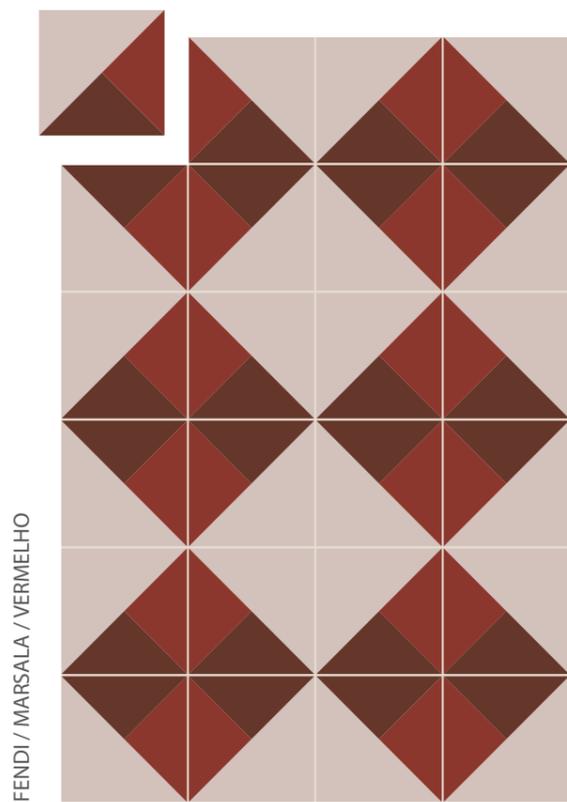

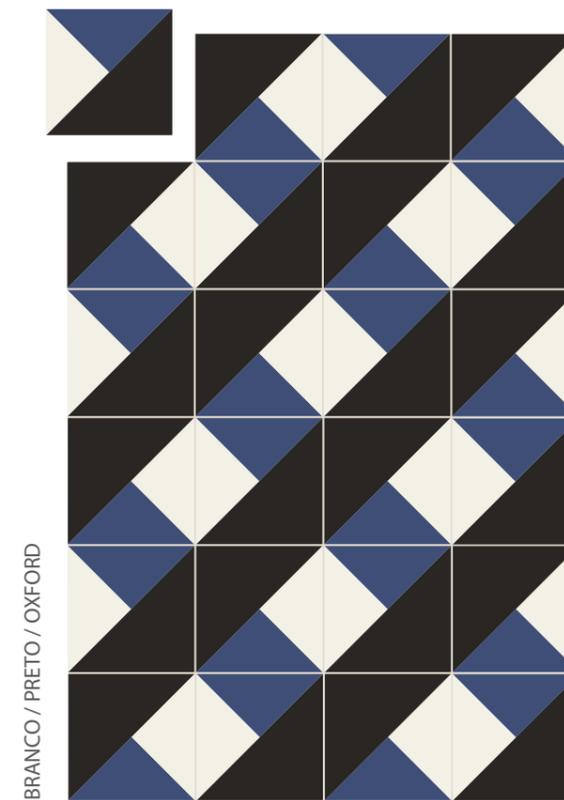

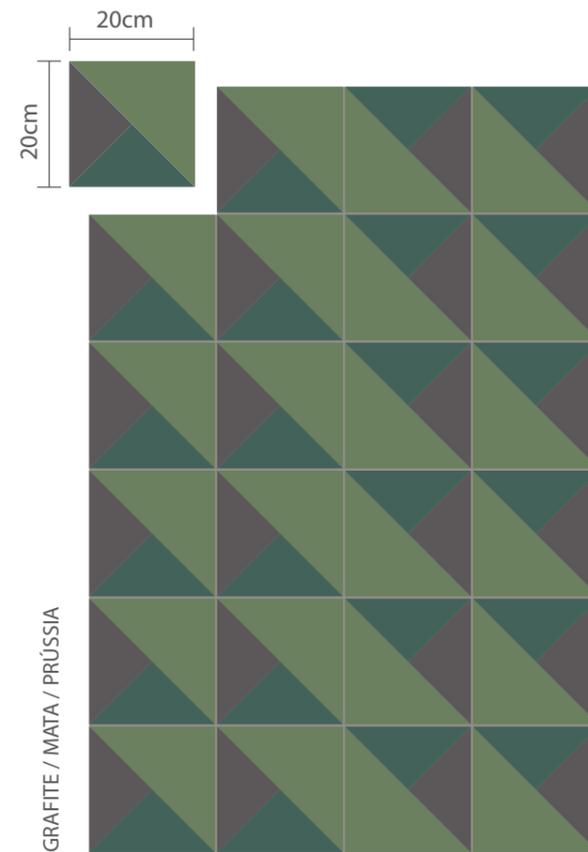

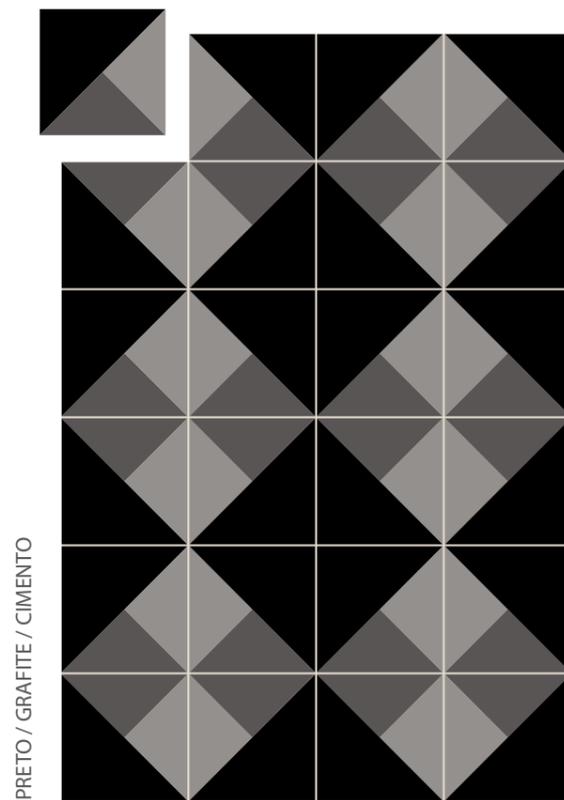

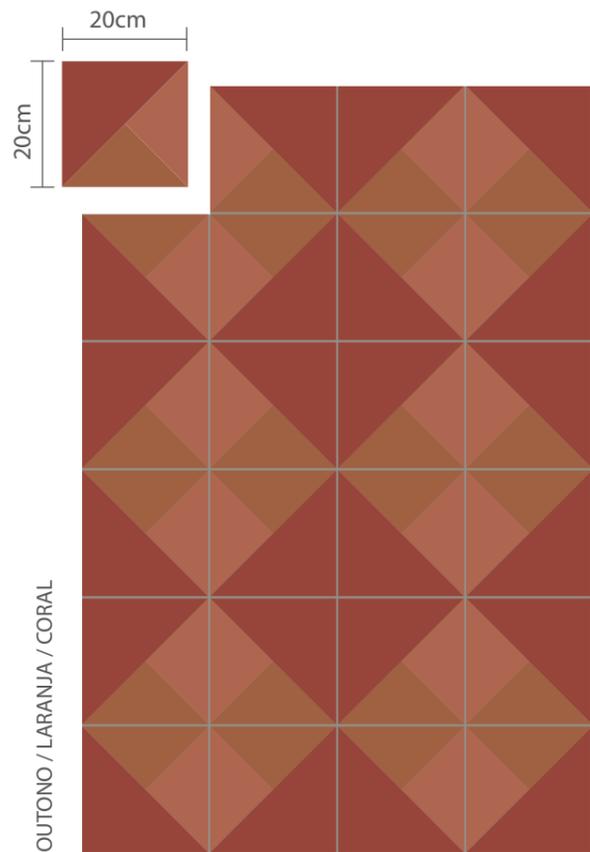

Dorothy Draper

CRUZADOS

CRUZADOS - CZ01

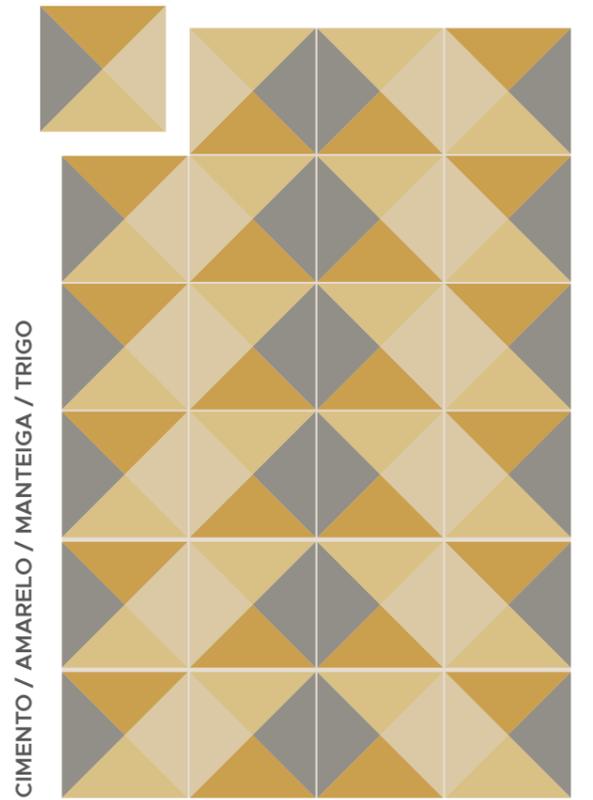

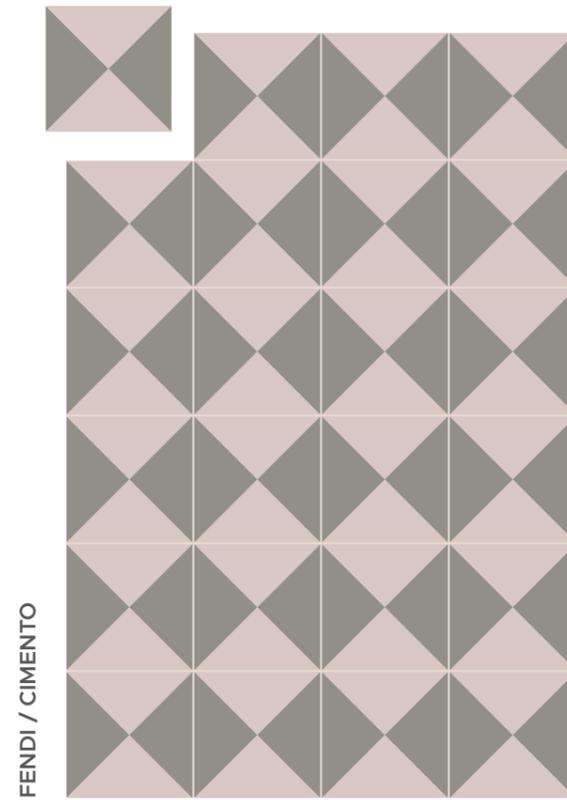

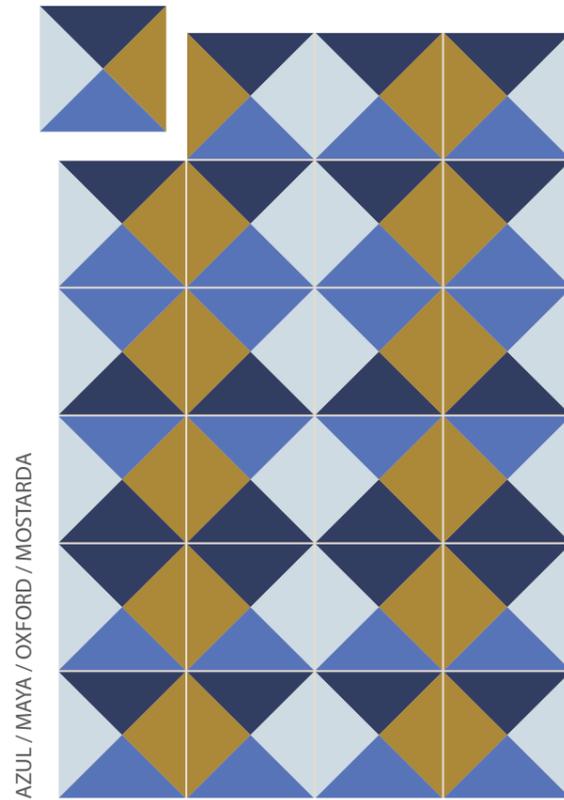

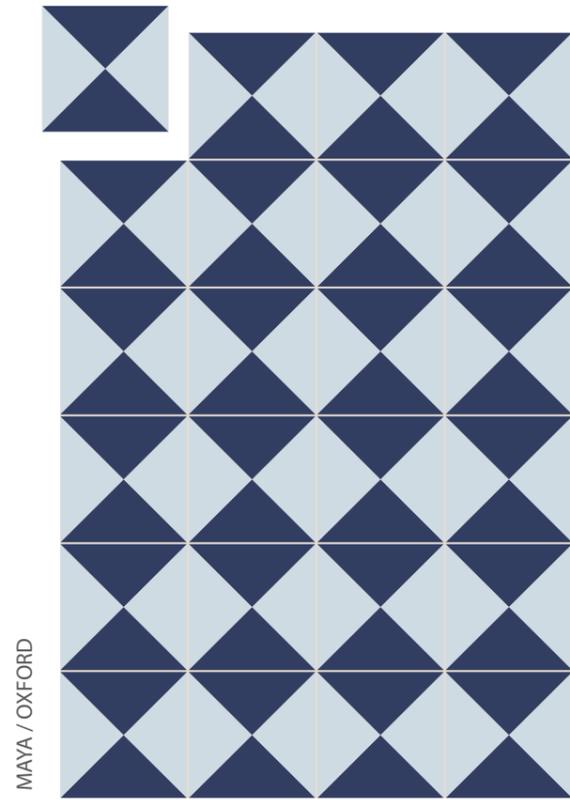

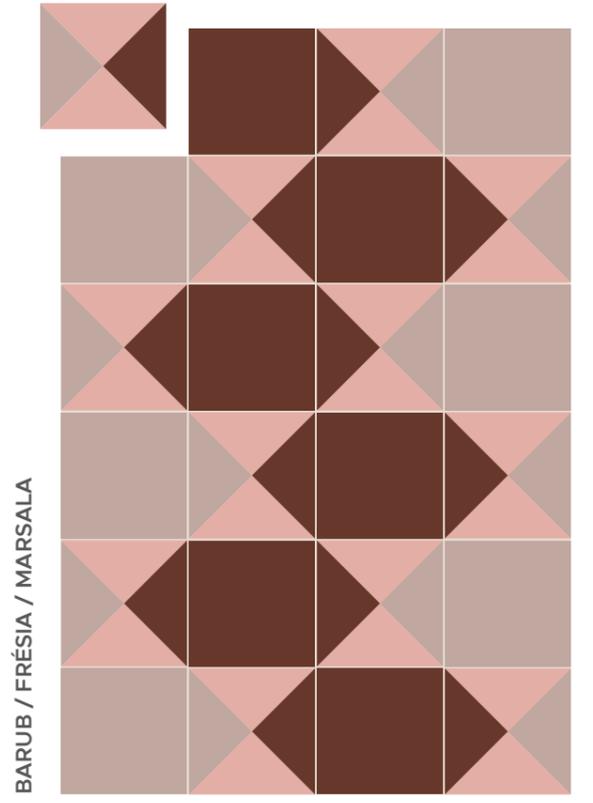

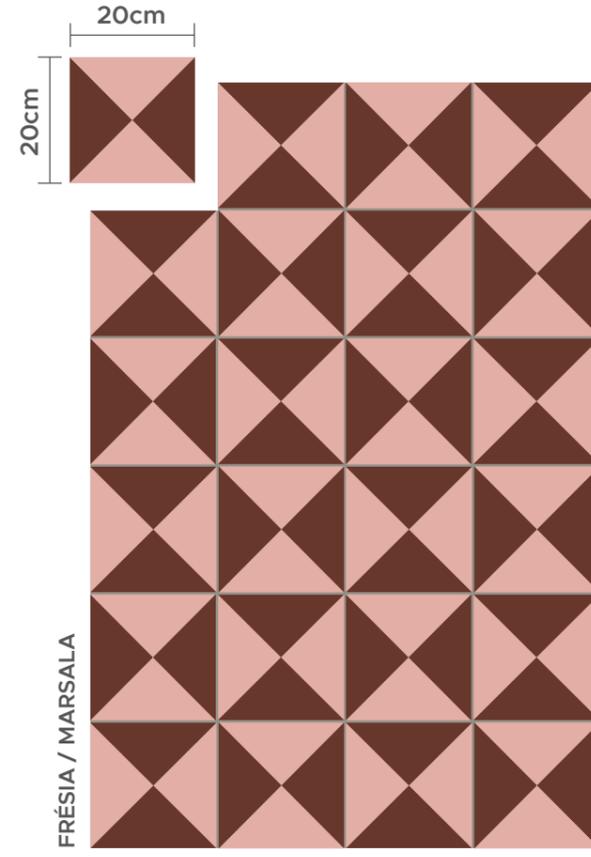

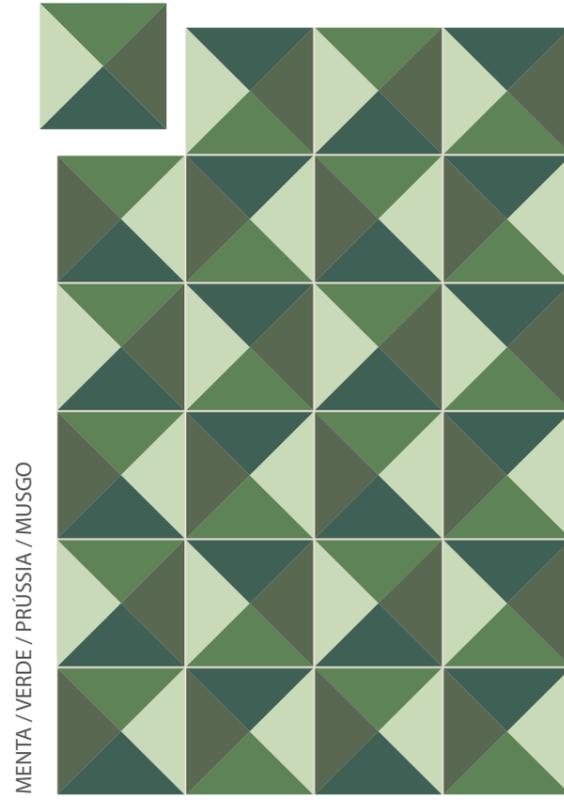

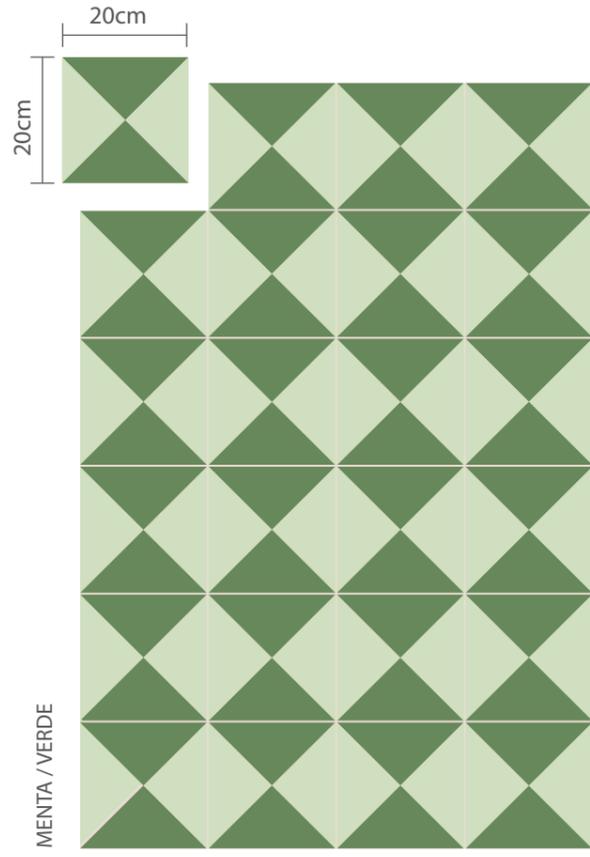

“ Em um mundo de coisas que imitam outras, o ladrilho hidráulico resiste. Isso justamente porque é verdadeiro em seu elemento: puro, simples, essencial. ”

PARQUETS - PQ03

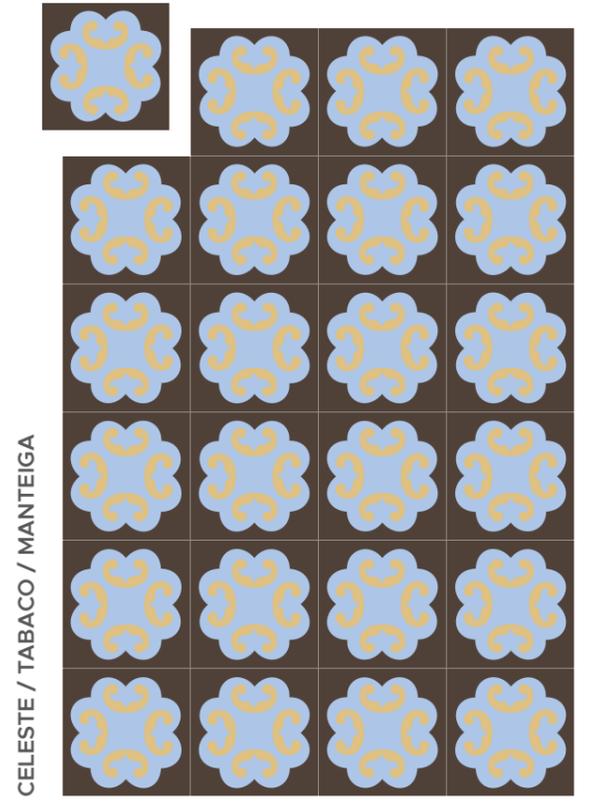

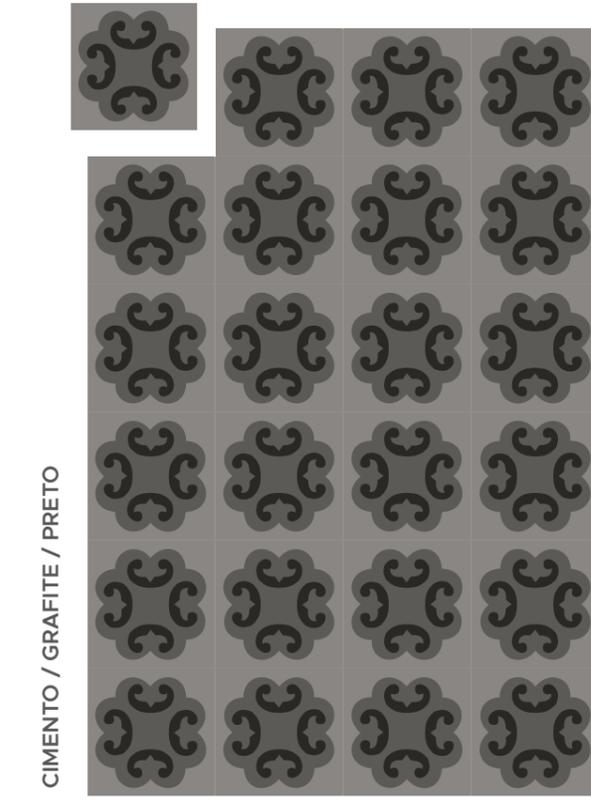

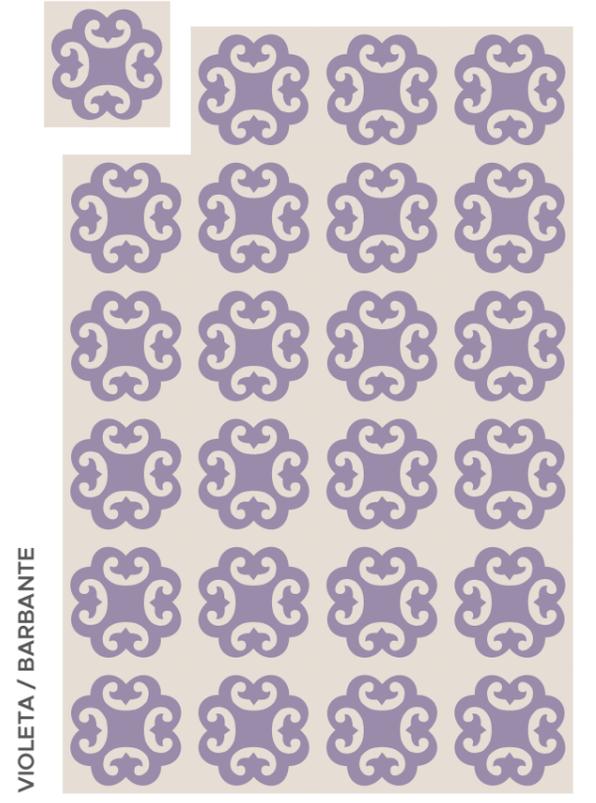

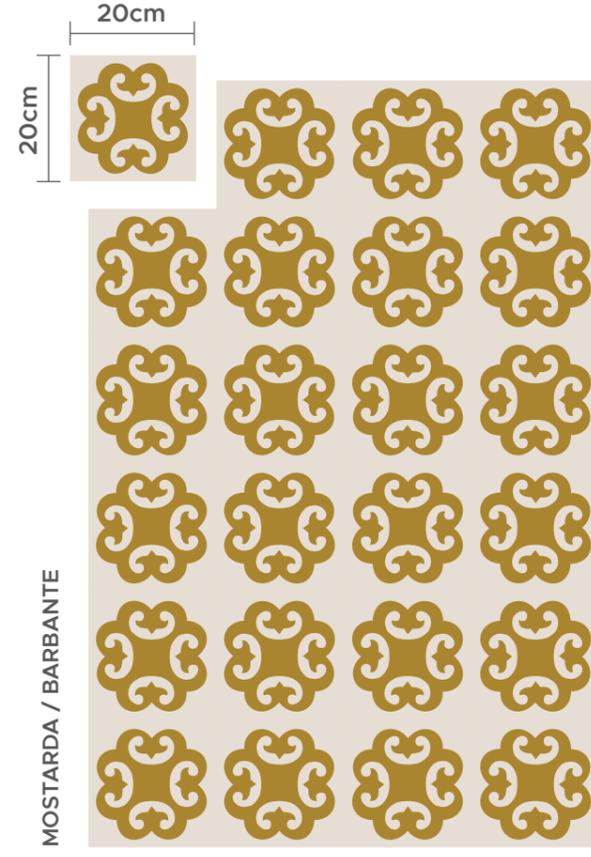

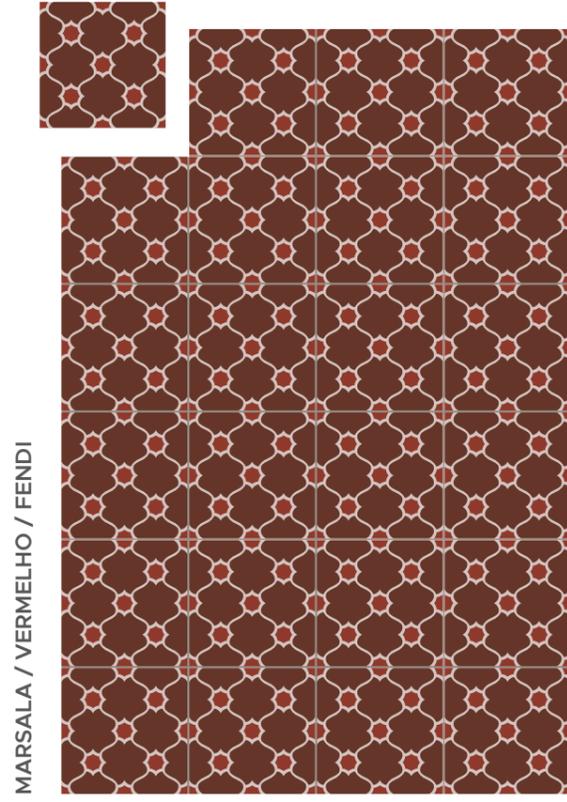

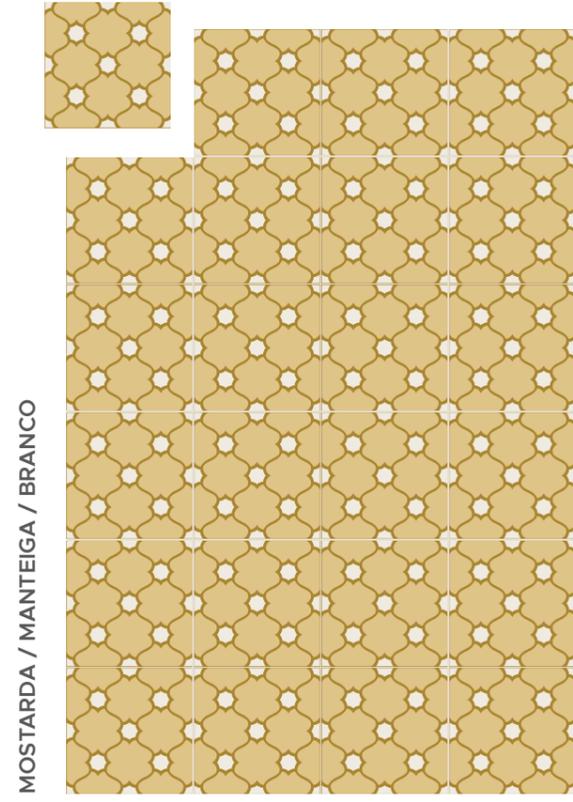

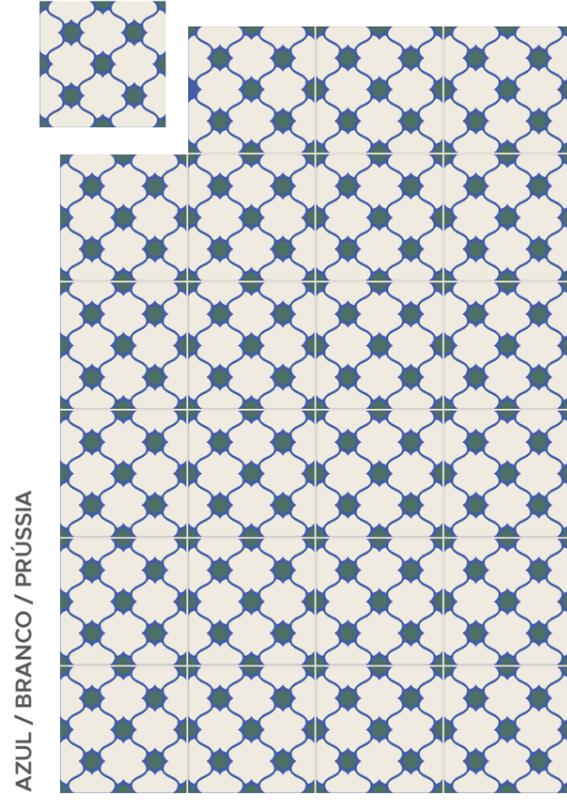

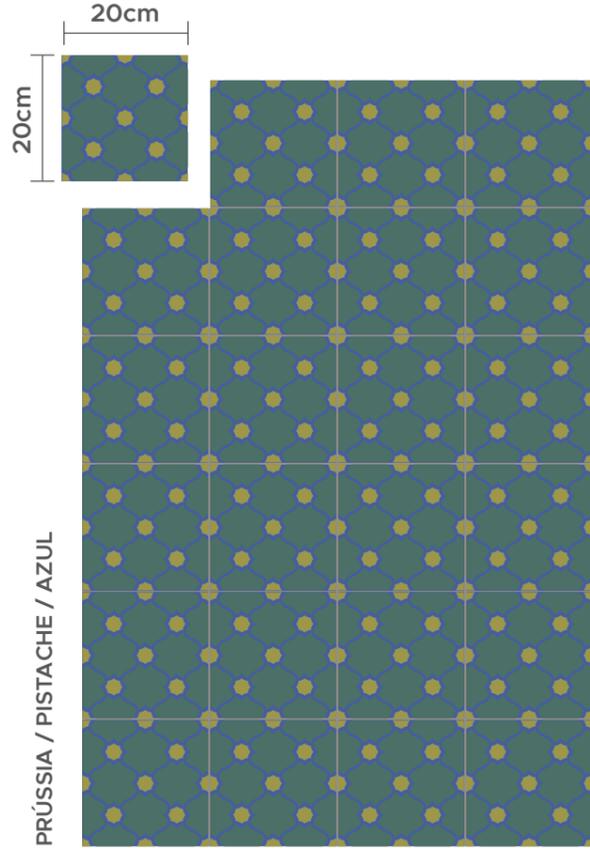

“ O ladrilho hidráulicos é feito um por um e isso lhe concede uma irregularidade que o olho humano gosta. Nesse sentido é ecológico, é orgânico. Dura 100 anos ou mais. Ele não vive a meteórica trajetória dos produtos industrializados. Por isso, ao contrário do que sucede com esses, não é dispensado sem dor: “É como jogar fora um amigo”, fala a professora Caru Duprat, da FAAP. ”

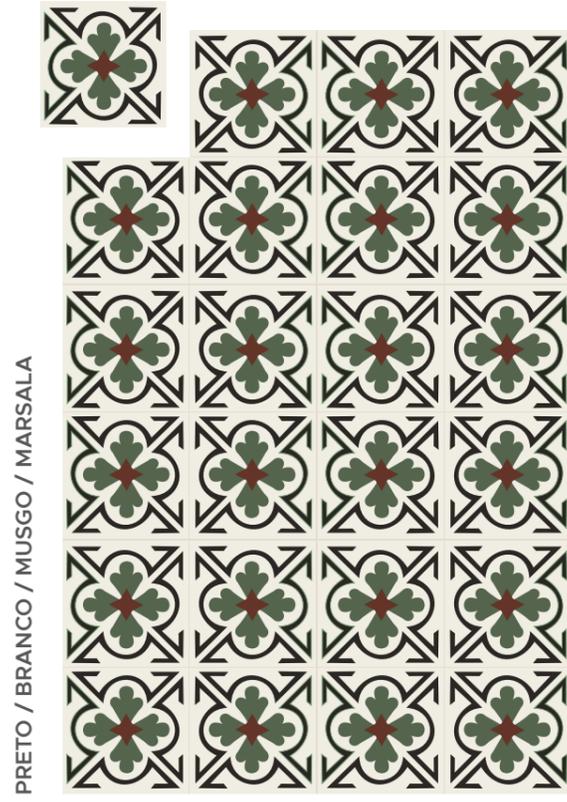

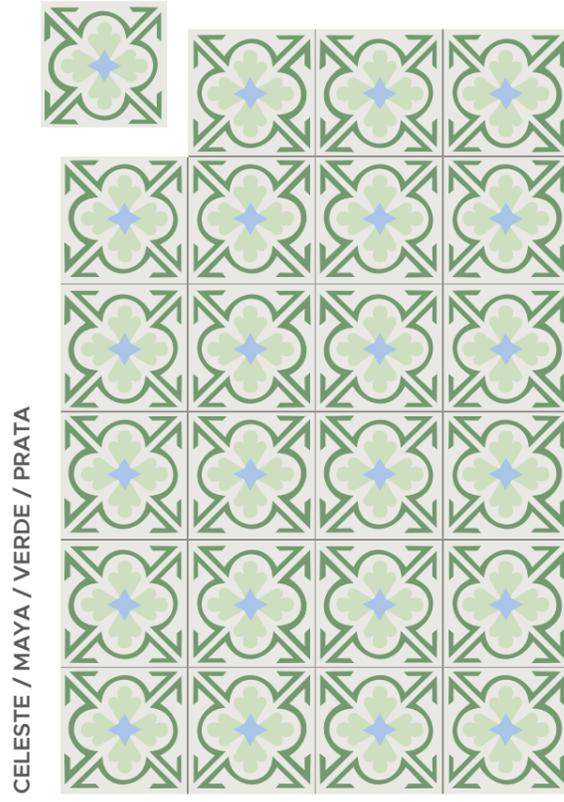

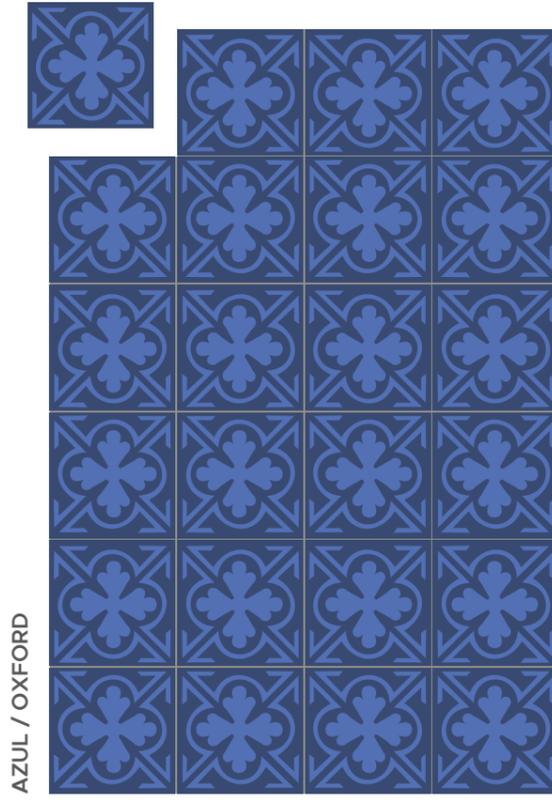

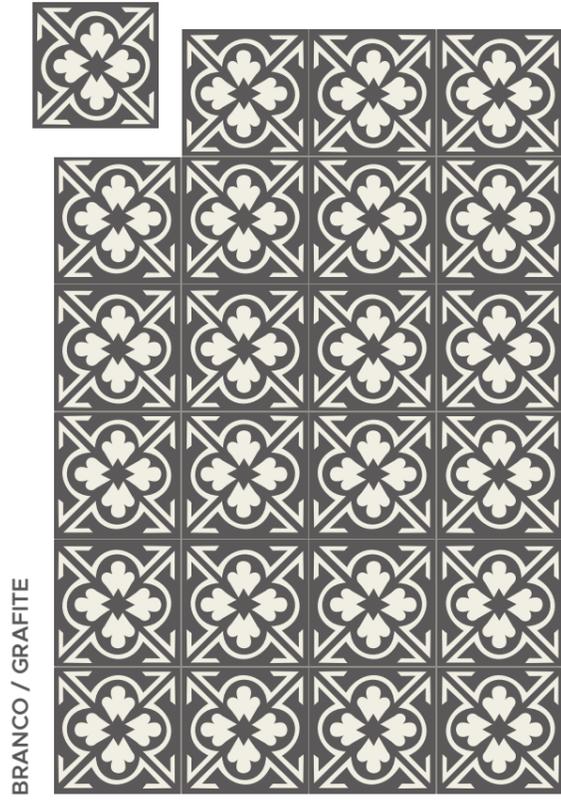

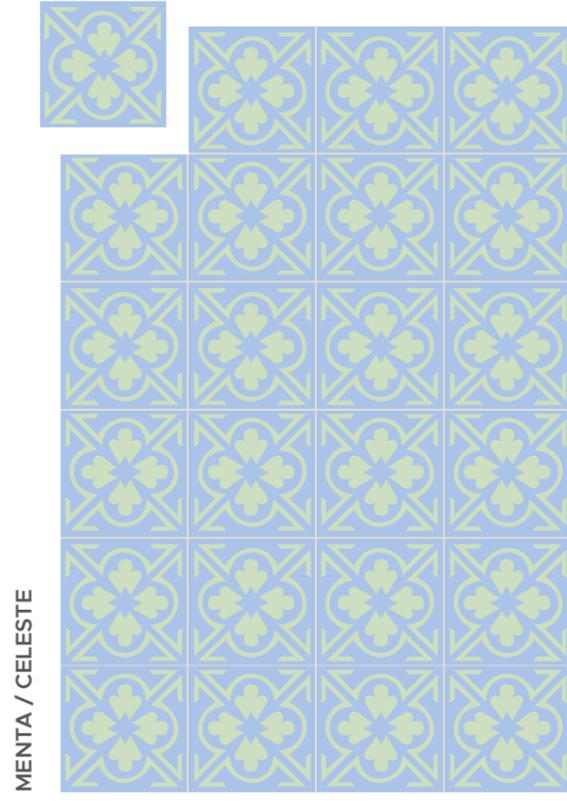

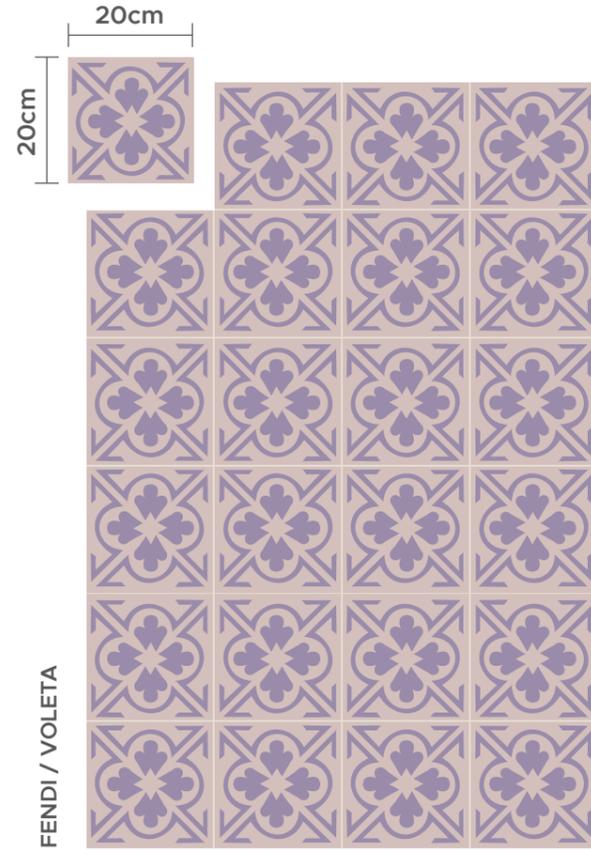

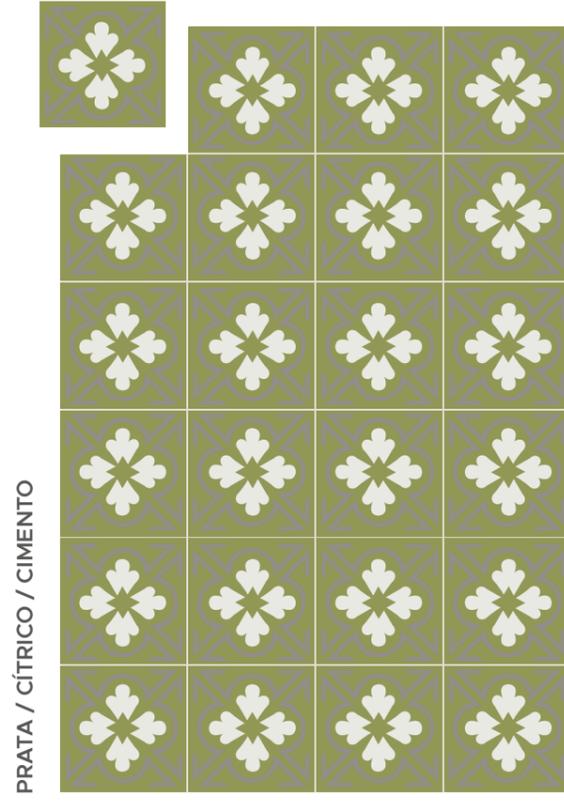

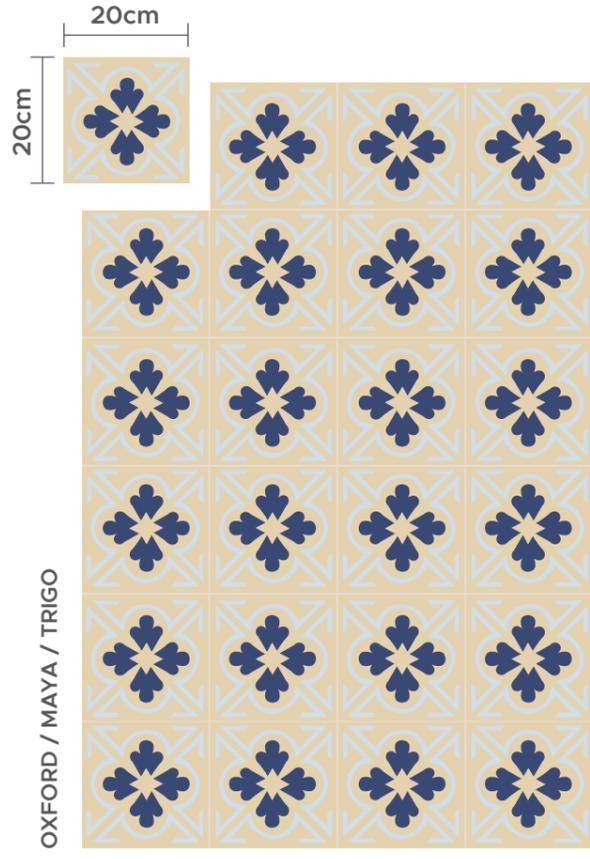

Caru Duprat
